

Meet Sierra

Sierra is a silly and sociable girl who enjoys laughing, smiling, and talking about her favorite things. She enjoys swimming, riding her bike, golfing, and spending time with close friends and caregivers. Sierra is creative and likes doing crafts and painting her nails. She enjoys music and has a love for animals.

A family that can communicate expectations and provide supervision would be ideal. Sierra does well with hands on parenting but would benefit from parents who encourage her to learn independent living skills. Sierra enjoys the company of older children in the home who can be role models for her. A home with children her age or older would be ideal. A 2-parent household is preferred, but all family compositions will be considered. Following permanency, Sierra will need to maintain contact with her brother and previous care providers.
